Ladybird II

Italian Design

Ladybird II *is the only paper folder designed to provide a compact solution for HP Designjet **T3500, T2500, T1500 and T920** large format plotter.*

Now it is possible to have a compact solution able to provide printing, scanning, stacking and folding operations all within the same small footprint. The compact folder fits perfectly with the HP Designjet plotter and allows easy access to the scanner, stacker and replacement of paper rolls.

*This folding system is the result of 45 years of **Gera** experience.*

New

- Extremely Compact. No need to occupy additional space.
- Ideal for Architects, Engineers, R&D departments and service centres.
- An affordable investment that allows the finishing process to be brought in-house thereby saving time and money.

Main Features

- ✓ Folder specifically designed for **HP** Designjet **T3500, T2500, T1500 and T920.** The folder is placed under the printer, folded documents are provided on the rear side.

- ✓ Compact solution, no need for additional footprint.

- ✓ Folding commands from PC.

- ✓ Easy access: folded documents as well as cross folding operation can be made while seated.

- ✓ Maximum folding precision. Can fold wide format documents up to 4m long. A0, A1, A2 as well as non-standard sizes.

- ✓ It provides folded documents in real time synchronised with the variable speed typical of inkjet printers. Technical drawings with large colour images can also be folded immediately.

- ✓ Productive , reliable, solid and silent.

- ✓ Easy to use and install

Functions

Type

Professional folder, synchronised speed, functioning with HP Designjet printer T3500, T2500, T1500 and T920
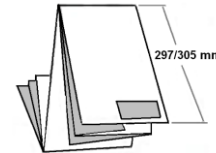

4 Folding Programs

DIN A: 190mm+20mm x 297mm
DIN B: 190mm x 297mm
DIN C: 210mm x 297mm
           210mm x 305mm

20mm,190mm   190mm   210mm

Cross folding: 297 mm or 305 mm obtained by re-introduction of fan folded document. Automatic detention of one or two cross folds.

297/305 mm

Formats

Width   Min: 297 mm   Max: 915 mm
Length   Min: 590 mm   Max: 4000 mm

Maximum cross folding length

Cross Fold: 6 folded panels, 1300 mm. long obtained by manual introduction of fan-folded document.

Solution with the HP driver and Embedded Web Server the user can remotely select the printed output destination (select the output bin for fold/select the stacker for no-fold).

Technical Specifications

Dimensions		Power
Length	750 mm	115-230Vac 60/50 Hz 230W
Width	1150 mm	
Height	580 mm	**Noise:** 62dbA
Weight:	103 Kg	**Media**: Recommended paper HP Q8004A- Q8005A , 2"- 3", 75-80-90 g/m²
