DATASHEET / BROCHURE

SureColor SC-T5400

Professional, entry-level large format technical printer allows users to print quickly, accurately and reliably up to 36".

With the SC-T5400 it's all about the flexibility, reliability, detail and throughput speed. Whether you're printing CAD, architectural or engineering technical drawings, or GIS, this printer delivers stunning (borderless, if selected) prints, time after time. Designed for those who need a professional-level, technical printer which boasts a low total cost of ownership. Stand included.

Clean design

White, compact and fits most environments.

These inks don't run

It uses UltraChrome XD2 pigment inks which means your prints are smudge and water resistant (whereas standard dye inks may run). Also, the SC-T5400 delivers deep blacks and crisp, dense lines — ideal for technical graphics.

Supports wireless printing

Enables users to print directly from smartphones or tablet devices.

Seamless paper changes

Change seamlessly between LFP roll and sheetfeed as this printer supports A4 up to A0 cutsheets as well as rolls.

Peace of mind Unique Nozzle Verification Technology (NVT) helps prevent misprints.

Accuracy and precision

Print technical, architectural and engineering drawings in great detail, with ease.

KEY FEATURES

- Floor standing Includes stand
- Impressive price and performance Professional performance – low running costs
- Clean design Thoughtfully designed to fit seamlessly into most environments
- Ease of use Even when away from the desktop
- Peace of Mind Unique Nozzle Verification Technology (NVT) helps prevent misprints
